

Site _____ Audited by _____ Date _____

The Restaurant Website Checklist.

Twenty-four things your site should do in 2026.

I THE BASICS

The basics.

- 01 Your menu opens on a phone without zooming. ☐
- 02 Your hours are visible within 5 seconds of landing. ☐
- 03 Your address is real, copyable text — not an image. ☐
- 04 Your phone number is a tap-to-call link. ☐
- 05 Your homepage answers "what kind of restaurant is this" in one sentence. ☐

II MOBILE EXPERIENCE

Mobile experience.

- 06 Your homepage loads in under 2 seconds on 4G. ☐
- 07 Tap targets are large enough to hit with a thumb. ☐
- 08 Your body copy is legible without pinch-zoom. ☐
- 09 Your site doesn't load zoomed-out on a phone. ☐

III CONVERSIONS

Conversions.

- 10 A reservation action is visible on every page. ☐
- 11 Your "Order online" button goes straight to checkout. ☐
- 12 Your address has a click-to-get-directions link. ☐
- 13 You have real photos of the room, the food, and the people. ☐
- 14 Social proof is visible above the fold — not buried in a testimonials page. ☐

IV FINDABILITY

Findability.

- 15 You have a claimed, verified Google Business Profile. ☐
- 16 Your <title> tag names both your restaurant and your cuisine. ☐
- 17 You have Restaurant schema markup in JSON-LD. ☐
- 18 Every important image has meaningful alt text. ☐
- 19 You have a sitemap.xml submitted to Google Search Console. ☐

V TRUST

Trust.

- 20 Your site is served over HTTPS with a valid SSL certificate. ☐
- 21 Your menu prices are visible — not "Ask your server." ☐
- 22 Your site has a visible "last updated" signal — or seasonal content. ☐
- 23 Your contact form actually sends emails you actually read. ☐
- 24 Your menu text is readable in bright sunlight. ☐
